NEWS FROM FIRST GRADE

1B is watching and making scientific observations of the eagles' nest in Decorah, Iowa. Mama eagle is 18 years old and has laid her 29th, 30th and 31st egg this year. She is a good mother. We also are observing that the dad eagle is very helpful too. As of today: #s 29 and 30 have hatched over the Easter weekend. We will observe the eaglets until the last day of school and will watch them grow quickly and become as large as their parents. If interested, google Decorah Eagles livestream and you will be given the link to watching the nest and the growth of the eaglets.
